Scope:

Telkom wish to enter into an Agreement for the Copper Testing Facilities in the NGN (Next Generation Network) Environment.

The Vendor is to comply with the following critical criteria:

Commercial:

Vendor to have ownership of at least 25% Black Shareholding (Documented proof to be provided I.e. Shareholding Agreement and Share Certificates, as well as Audit Report

Technical:

Should the Proposer not comply to the Technical Critical Criteria as enumerated hereunder, Telkom reserves the right to disqualify the Bid response received from the Proposer.

- 1) Telkom currently has two Testing and Element Manager Systems deployed namely: Integrated Remote and Test Systems (IRTMS) and Loopcare. The Solution to be supplied must be capable of being integrated into either one of the two aforesaid Systems. Telkom will not entertain a third Test and Element Manager.
