**SCOPE:**

The supply of VRLA (Float- and Cycle batteries) batteries for Telkom Network. These batteries include different sizes and technologies (for example AGM and Gel technologies) to cater for the following applications in Telkom.

1. Allow uninterrupted services to its clients if primary power failures occur on grid connected sites.
2. Allow solar sites to have sufficient standby power during night time and cloudy days.

The following **critical criteria** will be used for this bid:

- Compliancy to Safe Operations as per paragraph 7.1 of specifications SP-AP0065 and SP-AP0061. Test reports and/or certificates are to be supplied as proof of compliance.
  - Vendors must be 25.1% Black owned
-
