Description:

RFP 0124/2008 for a Transparent Traffic Optimization Solution for the Telkom / SAIX Internet Network

Critical Criteria

The following Technical Critical Criteria will be used to evaluate the proposals:

1. The solution shall be able to inter-operate with the Telkom SANDVINE solution;
2. The solution shall support as a minimum the Internet routing protocols as specified in Telkom Specification SP-2388. In addition the solution shall have the ability to include optimization of any new multimedia or other popular applications and protocols within 2 weeks of identification of the new protocol; and
3. The solution shall be completely transparent to the Internet user and not alter/restrict or interfere with any protocol/application.

Failure to comply to the above critical criteria will result into elimination of the Proposer from the RFP process.

The Request for Proposal document can be collected from the Telkom Tender Office at the following address:

**179 Proes Street
Telkom Towers South
Lower Ground Floor**
