**Document Fee R200**

---

**SCOPE:**

The Scope of this Request for Proposal is to select a vendor/s to supply light weight mobile A5 PC's (herein after also referred to as "device") and it's accessories. Vendors must be able to supply all of these items from the same product range.

To reduce the complexity and enable Telkom to standardise the Mobile environment, it is essential that the individual hardware components making up the device be specified and that variations in terms of make, model and associated drivers for these components be kept to a minimum. All components must be interoperable and work / interact flawlessly with each other, the computer system hardware, the BIOS and all software components, without compromise to functionality or quality of continuous operation.

**The following Critical Criteria will be used in RFP050/05:**

- A5 Form Factor
- Windows XP SP2 Professional Operating System. Certificate of proof required
- Connectivity : Wi-Fi 802.11b/g/l (Interface to Cisco CCX2); LAN Connection; Bluetooth; IrDA with dial-up modem.
- At least one PCMCIA slot

Non-Compliance to the above critical criteria will lead to disqualification
