SCOPE:

- 1.0 The RFP contains the conditions, which will govern the requirement for the selection of Vendor/s to supply Universal Integrated Circuit Cards, Applications and Java Applets to Telkom.

Telkom invites Proposers to provide standards-compliant Universal Integrated Circuit Cards (UICC's) implementing both the GSM and UMTS applications.

The successful Proposer will be required to develop and integrate existing Java applets on the UICC's.

Shortlisted Proposers may be required to demonstrate the solution in the Telkom mobile GSM and UMTS network before the contract is awarded.

- 2.0 Critical Criteria

The following requirements shall be supported by the UICC cards. Failure to comply will result in automatic disqualification of the Proposal:

- 2.1 The UICC shall support the Java Card Application Programming Interface, Runtime Environment Specification and Virtual machine Specification, all v2.2.1 or later.
- 2.2 The UICC shall support SIMalliance Toolbox (S@T) Specifications Version 3.0.0 Release 2007.

- 3.0 The tender document can be obtained from Telkom's tender office at the following address:
