

TELKOM RATES 2008

Telkom's current tariffs will be adjusted on 1 August 2008 in accordance with the Independent Communications Authority of South Africa's (ICASA) current Price Control Regulations and are subject to their approval.

The filed tariff adjustment will result in an overall increase of 2.4% in the price of our basket of products, which is well below the CPI of 11.1%.

Services such as DSL, data products, long distance and international calls will now be within the reach of more pockets. In our continuous effort to make telecommunications more affordable, we have adjusted our tariffs in a way that really stands to benefit you. Just take a look at these prices:

POSTPAID CALL CHARGES

	STANDARD TIME (per minute)		CALLMORE TIME (per minute)		MINIMUM CHARGE (per call)
